

Can Do Cube

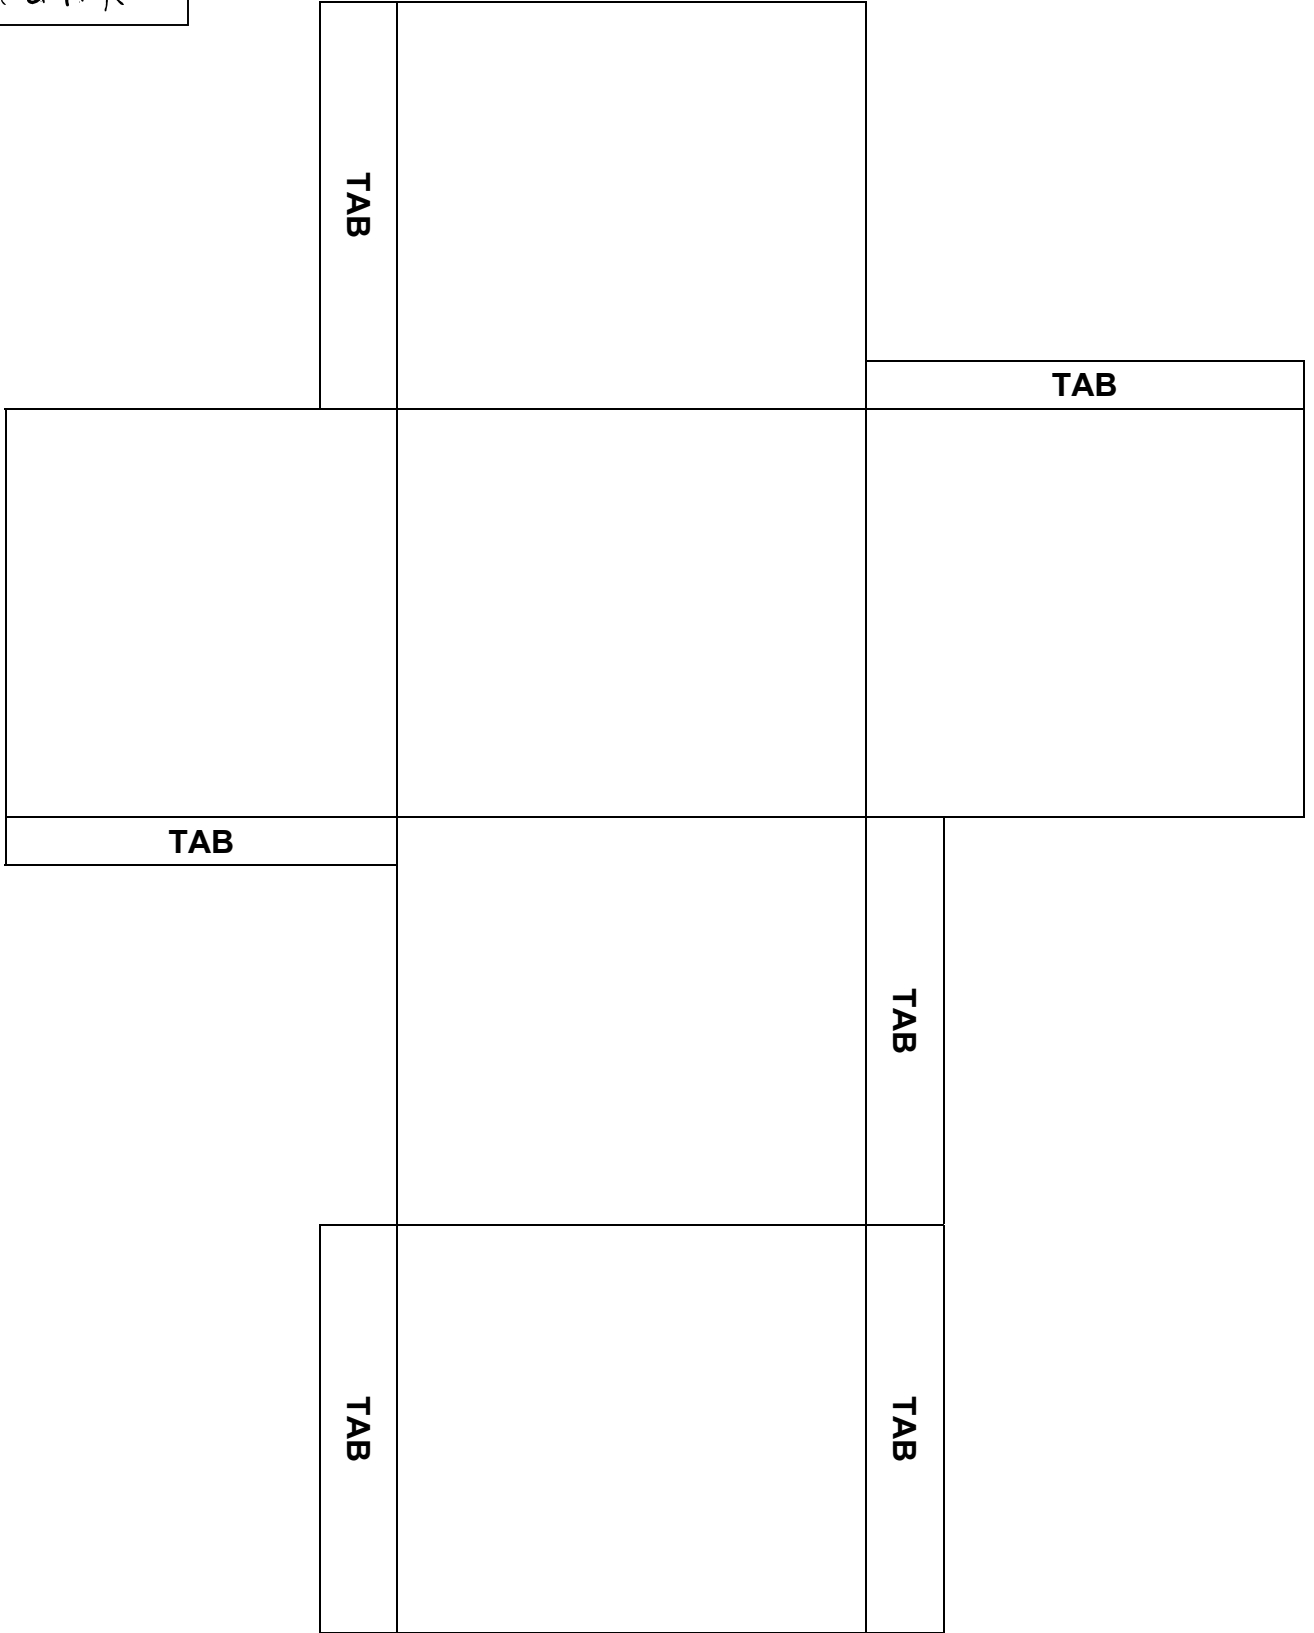

Activity

- Students roll both cubes and answer yes or no. For example, Can a crab breathe?
- Students roll both cubes and answer yes or no and give 3 reasons.
- Students roll the organisms/objects cube and imagine how they could modify the organism or object so that it could talk. What might it say? How might it look? Students can draw and label their favourite combination.
- Using the blank template, children can make their own cubes.

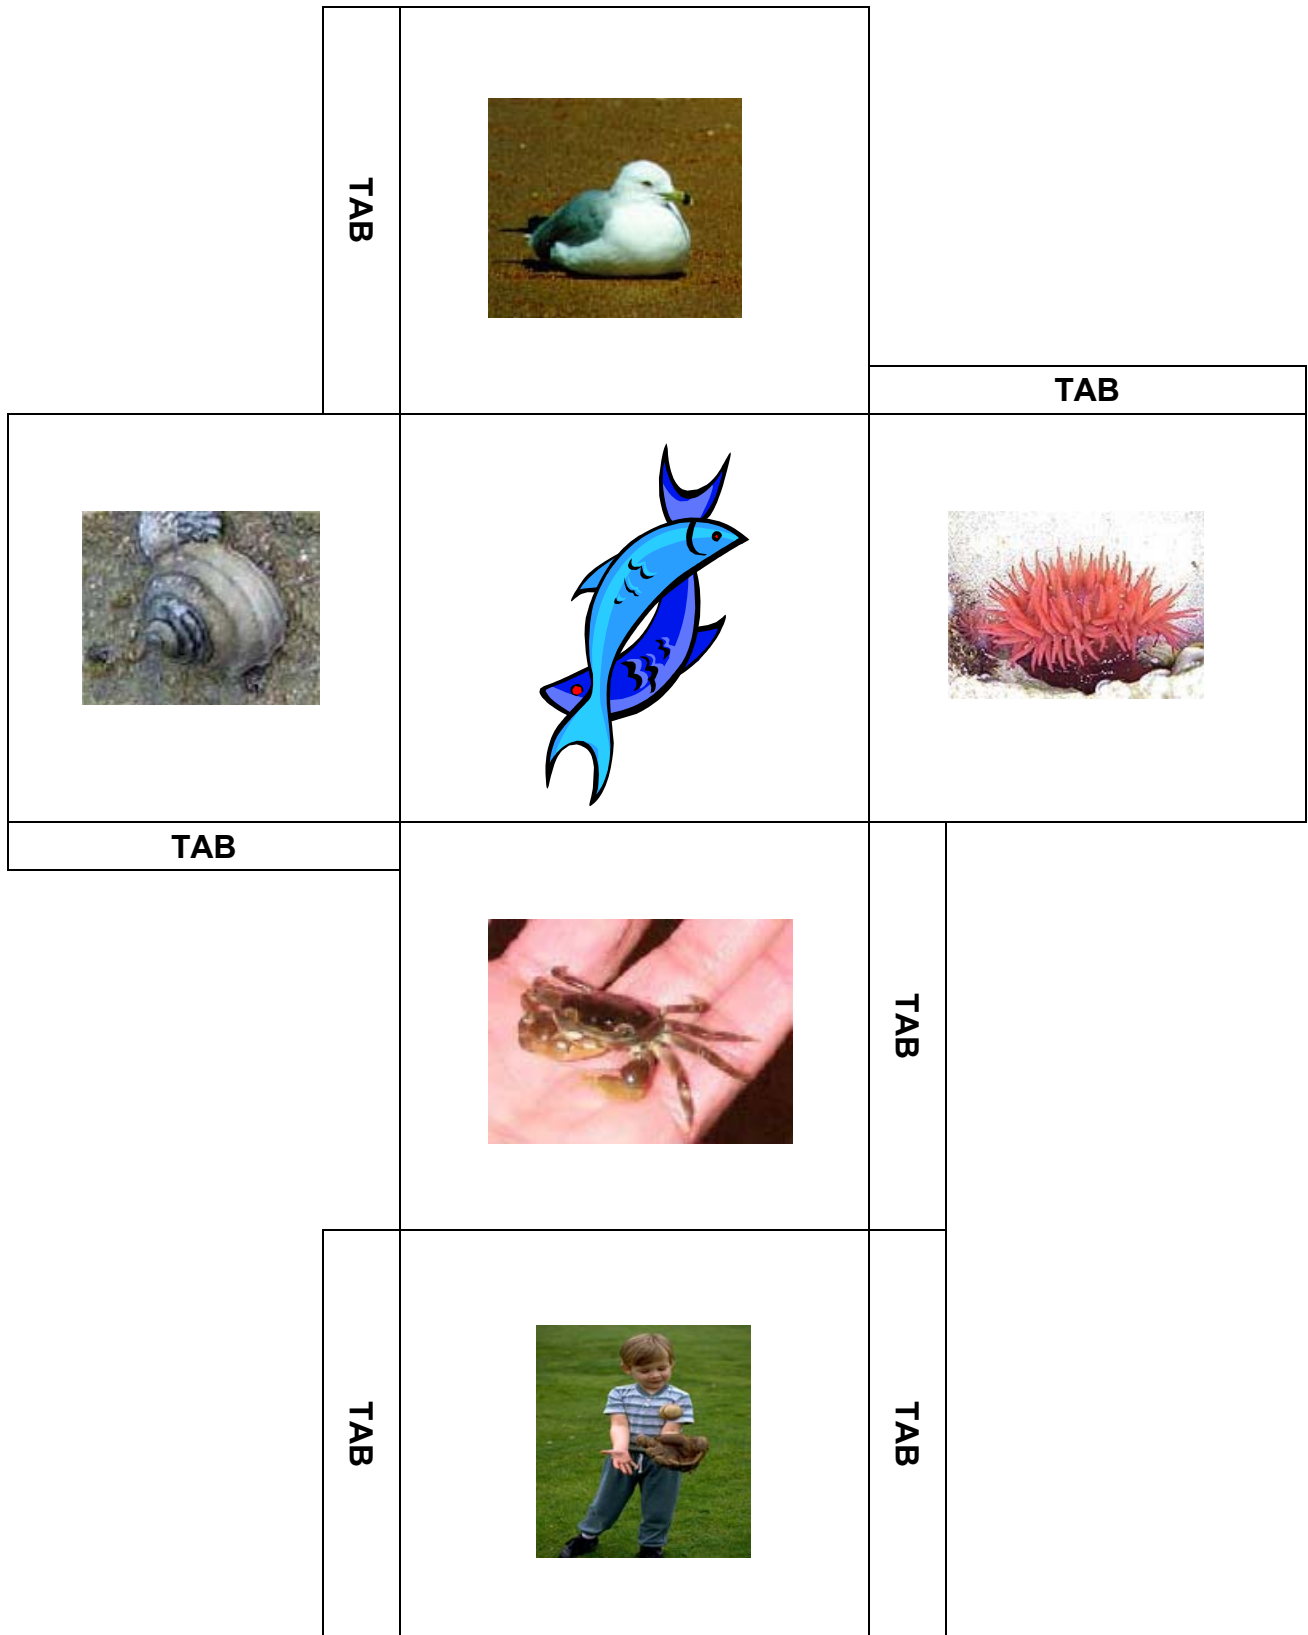

Tips

- Print picture cube on the computer and laminate or contact.
- Use cube as a stimulus in creative writing lessons.
- Use Maths time to make the cube.
