

Living Beneath The Waves

NO. 1

Students browse the [photo galleries](#) and select one group of organisms. View the images and write 10 questions about the organisms.

Using the information underneath the images, students read and try to answer their own questions.

NO. 2

Using the [photo galleries](#) again:

- Write 10 Facts and make your own book.
- Write 10 True or False sentences.
- Write a "Who am I" Book using the library and the internet to do some more research.
- Find 5 words that you don't know the meaning of and become the expert.
- Give a talk on the organism of your choice.
- Design a poster on the creature of your choice.
- Prepare 20 Quiz questions about animals and plants at the Bluff.
- List the similarities and differences between 2 creatures of your choice.
- Make your own Power Point presentation to share with other students. Write your own notes based on your reading and exploration.
